

Prefi plans according to your needs and environment. Our industrial solutions are permanent structures, but there is an other chance of founding an industrial solution on wide spans is having an easily demounting structure. When ever you want to change the place of the site or when you get more capacity on the job, the solution helps you to increase the length with the ease of your fingers.

Half rigid frame, bearing structure, colons and rafters are NPI or Multiple steel profiles.

As for covering materials can be:
Painted galvanized steel boards,
Painted aluminum trapezoidal sheet with 40-42kg/ m3 density polyurethane Painted aluminum trapezoidal sheet with 40-42kg/ m3 density polyurethane.

Prefi offers you economicness, low costs, long lasting times and easy add opportunities on these types of industrial structures with the unlimited architectural possibilities and alternatives.
