

ADDITIONAL STATEMENT TO PREFI' ENVIRONMENTAL POLICY AND PROCEDURES 2015

We hereby producing steel construction since 1995.

We proudly present that since the robots have been involved in our production linea, we have %90 decreased our air pollution.

As you have been visiting our factories, steel structure is manufactured by robots and without welding.

What is without welding? How can it be is:

Every joint is made by nult and bolts or screws. As seen here:

Each Project has own Static Projects which are being solved and as seen from the Camps on Tundras; We have done the best.

We are proudly offer you the best environmental solutions.

For Clean Environment, For better Future of our Products; This is the Best and Latest.
